sorrento portsea artists' trail

the future

This is an on-going project. It is known that other artists have worked in this area and it is hoped to extend the trail in the future. To be considered, the work of the artist must be in a State or Regional gallery collection and/or the artist must be referred to in McCulloch's Encyclopedia of Australian Artists. Please contact Arts Nepean if you have any suggestions.

history

In 2004, the Mornington Peninsula Shire established Arts Nepean to encourage all forms of the arts in the southern end of the Mornington Peninsula. For many years the Peninsula has inspired the work of a number of famous artists, and one of the projects undertaken by Arts Nepean has been to establish the Sorrento - Portsea's Artists' Trail which aims to bring the artists work to life by positioning images of the paintings as close as possible to the scene viewed by the artist.

Funding was provided by the Mornington Peninsula Shire under the terms of a Community Partnership Agreement with Arts Nepean and donations from Sorrento Rotary Club, the Tallis Foundation and local businesses and individuals in Sorrento and Portsea. With the help of the Mornington Peninsula Regional Gallery and Sotheby's Australia, the first five paintings were identified and stands installed by the end of 2005. Later, further paintings came to light and nine more stands were subsequently installed. The positions of the fourteen stands are shown in the attached plan.
